Attachment to Preliminary Amendment dated June 17, 2002

Marked-up Copy

Page 1, Paragraph Beginning at Line 15:

FIG. [1] 14 is a structural drawing of a conventional optical fiber holding device.

Page 1, Paragraph Beginning at Line 17:

Referring to FIG. [1] 14, reference numeral 1 denotes an optical fiber made of a core and a clad; 2 denotes a grating which is formed at a part of the core of the optical fiber and reflects an optical signal of a number of [wave lengths] wavelengths; 3 [heaters] denotes a heater which is made of a thin film for heating the grating to a predetermined temperature distribution; and 4 denotes a substance which is, for instance, made of quartz and on which the heater [2] 3 is mounted. [Where the] The grating 2 is used for compensating the wavelength dispersion of a number of optical signals propagated through the optical fiber 1.
